

Lyric Professor Emeritus, Gary Crew, from the Sunshine Coast University in Queensland.

Greetings Martin. I would like to thank you for the wonderful anthology of poetry written by you that you gave me when I spoke on 'Theme' at Caboolture Library last week. I was born in Australia (here at Ashgrove, Brisbane) in 1947. I see that you were born into a war torn world in 1941. I have the greatest respect for you that out of that horror you can still see such beauty in the natural world. Thank you so much for your enterprise, courage and lyricism. You have my greatest admiration. Gary Crew
